LOKAWAY

**WORLDS
MOST ADVANCED
ANTI-PRY DESIGN**

TOOL BOXES 2018

Lokaway's Swing 'n' Slide, Anti-Pry Design Technology.

Lokaway Swing'n'Slide, the world's most revolutionary locking system, patented in over 30 countries across 6 continents worldwide, the Swing'n'Slide system is in a league of its own. Developed with years of security experience the SnS system provides the ultimate in anti-pry security. By concealing the leading door edge entirely any potential prying intrusion is immediately stopped as there is no point of access to pry the door.

Innovative locking design, concealed hinges and a thoroughly constructed product all come together to provide simple yet very secure features that combine to make the Lokaway Swing'n'Slide ranges of products as good as they are today.

Lokaway offers the consumer one of the most significant enhancements to protecting their personal items available on the market and at a price that is affordable.

The Swing'n'Slide system, although seemingly complex in its operation, is a simple and reliable system with all its strength coming from innovative design and intelligent engineering.

Timeline

2003 - 2005

- Further system development -
- More development and patent refinements -
- First production facility set up in Victoria, Australia

2009 - 2011

- Manufacturing/License agreement signed -
- Additional patent improvements made -
- Market share growth -
- USA & China patents granted -
- 1st Tool box samples manufactured -

2002

- First concept of the Swing'n'Slide system
- First working sample was made
- Patent applications submitted

2006 - 2008

- First patent granted
- First Australian made production models sold in Australia
- Development of Swing'n'Slide tool boxes

2013 - 2018

- Massive overhaul on all products for improvements
- Australian Distributor appointed for Gun Safes
- UK Distributor for Lokaway appointed
- Continued development of local and international product range
- Preparation for USA and EU expansion

Swing 'n' Slide Design

Lokaway is a market leader in household and commercial safes due to their patented technology. The Swing'n'Slide concept is like no other design on the market and provides the best in anti-pry construction. The easy to use design and comprehensive range will provide improved security and peace of mind when locking away your valuables.

The Swing'n'Slide technology applies itself across every product and brings a new standard of quality to the industry.

Unbeatable Innovation

With safes remaining almost unchanged for over 100 years, Lokaway has been determined to bring a new and improved product to the market.

Pressure Point Defence

The leading edge is always the most prone point of attack, however the Swing'n'Slide design doesn't offer this weakness to potential thieves.

Efficiency and Intelligence

Lokaway safes provide true anti-pry protection. Reinforced sides and complete edge concealment means our safes are extremely difficult and frustrating to pry open, even when using exactly the same materials as other safes.

KEY FEATURES

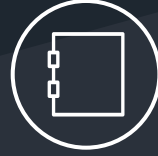

Below is a list of key features of the Lokaway range, to assist you to choose the right tool box for your needs.

Key Lock

Anti Pry

Door Gauge

Body Gauge

LSB Series

Models: LSB3624, LSB4828, LSB4836

- Most advanced Anti-Pry design on the market
- Full welded construction
- Reinforced Anti-Pry door
- Heavy duty skids are standard on these models
- Patented internal hinge design
- Corrosion resistant coating
- Recessed heavy duty lift handles

LSB3624

LSB4828

LSB4836

LSBA Series

Models: LSBA5536

- Most advanced Anti-Pry design on the market
- Full welded construction
- Reinforced Anti-Pry door
- Heavy duty skids are standard on select models shown
- Patented internal hinge design
- Corrosion resistant coating
- Recessed heavy duty lift handles

LSBAD Series

Models: LSBAD4848

- Most advanced Anti-Pry design on the market
- Full welded construction
- Reinforced Anti-Pry door
- Heavy duty skids are standard on select models shown
- Patented internal hinge design
- Corrosion resistant coating
- Recessed heavy duty lift handles

LH5116 Series

Models: LH5116

- Most advanced Anti-Pry design on the market
- Full welded construction
- Reinforced Anti-Pry door
- Heavy duty skids are standard on select models shown
- Patented internal hinge design
- Corrosion resistant coating
- Recessed heavy duty lift handles

OPTIONS

Lokaway has a large range of standard Swing 'n' Slide products to choose from. Customization is also available including colours, logo and or a size that is suitable for your market and needs.

Custom Coating:

Various Powder Coating Finishes and Colours Upon Request (include swatches of the colour options)
